Announcing the successful implementation of Aegis MES – SCJ ASSOCIATES

At SCJ Associates, our focus on constant improvement doesn't just give us an edge over competitors; it helps us accomplish our goal - to maintain the highest level of service and value for our respected customer partners. Continuous Improvement is critical to SCJ Associates. SCJ has incorporated Aegis Software as our Manufacturing Execution System, the leading provider of innovative software solutions to improve speed, control, and visibility throughout manufacturing operations. **Smarter – Faster – Dependable.**

System Features

- **Accelerated** integration of customer design files into production tools
- **Line** serial number WIP tracking data collection
- **Efficient** management of complex projects and frequent revision changes
- **Enhanced** quality through power on line visual aides
- **Intelligent** defect mapping drives continuous improvement
- **Optimized** manufacturing process and improved controls
- **Proactive** quality management via real time data mining and reporting
- ISO 13485 **compliant** material traceability

SCJ Associates, Inc. is a full-service engineering and manufacturing company incorporated in the state of New York in 1971. The primary business of the company is providing Electronics Manufacturing Services (EMS) to Original Equipment Manufacturers (OEMs).
